A. Purpose of the Form — Use this form to determine whether your income tax was sufficiently paid throughout the year by withholding or by estimated tax payments. If it is not, you may owe additions to tax on the underpaid amount.

B. Filing an Estimated Declaration and Paying the Tax, Calendar Year Taxpayers — If you file returns on a calendar year basis and are required to file Form MO-1040ES, you are generally required to file a declaration by April 15, and to pay the tax in four installments. (If you are not required to file a declaration until later in the year because of a change in your income or exemptions, you may be required to pay fewer installments.) The chart below shows the due date for declarations and the maximum number of installments required for each.

Period Requirements First Met	Due Date of Declarations	Maximum Number of Installments Required
Between January 1 and April 1	April 15	4
Between April 2 and June 1	June 15	3
Between June 2 and Sept. 1	Sept. 15	2
After Sept. 1	Jan. 15	1

When the due date falls on a Saturday, Sunday or legal holiday, the declaration will be considered timely if filed on the next business day.

C. Fiscal Year Taxpayers — Fiscal year taxpayers should substitute for the due dates above, the 15th day of the first and last months of the second quarter of your fiscal year; the 15th day of the last month of the third quarter; and the 15th day of the first month of your next fiscal year.

D. Exception to the Additions to Tax — You will not be liable for additions to tax if your 2000 tax payments (amounts shown on Line 20) equal or exceed any amount determined for the same period under the following exception provisions. You may apply a different exception to each underpayment, but please enclose a separate computation page. If none of the exceptions apply, complete Lines 15 through Line 29.

The percentages shown on Lines 21, 22 and 23, for the April 15, June 15 and Sept. 15 installment dates, are for calendar year taxpayers required to pay installments on four dates.

Exception 1 — Prior Year's Tax. — This exception applies if your 2000 tax payments equal or exceed the tax shown on your 1999 tax return. The 1999 return must cover a period of 12 months and show a tax liability.

Exception 2 — Tax on Prior Year's Income using 2000 Rates and Exemptions — This exception applies if your 2000 tax withheld and estimated tax payments equal or exceed the tax that would have been due on your 1999 income if you had computed it at 2000 rates. To determine this exception use the personal exemptions allowed for 2000 but use the other facts and law applicable to your 1999 return.

Exception 3 — Tax on Annualized 2000 Income — This exception applies if your 2000 tax payments equal or exceed 90% of the tax on your annualized taxable income for periods from the first of the year to the end of the month preceding that in which an installment is due. To annualize your taxable income, follow these four steps.

- Figure your adjusted gross income less itemized deductions from the first of your tax year up to and including the month prior to that in which an installment is due; or, if you use the standard deduction, figure your adjusted gross income for that period.
- Divide the result of step (a) by the number of months in your computation period.
- Multiply the result of step (a) by 12.
- Subtract the deduction for personal exemptions, federal tax and, if you did not itemize, subtract the standard deduction. The result is your annualized taxable income.

Exception 3 may not be used for the fourth installment period.

Example I
(combined return with one dependent)

1. Wages, received during Jan., Feb. and Mar.	\$6,000
2. Self-employment income during Jan., Feb. and Mar.	4,000
3. Adjusted gross income	\$10,000
4. Annualized income (\$10,000 ÷ 3 x 12 = \$40,000)	
5. Less:	
(a) Standard deduction	\$7,350
(b) Exemptions (2 x \$2,100) + (1 x \$1,200)	5,400

(c) Federal tax (joint return)	\$3,727
6. Annualized taxable income	\$23,523
7. Income Tax (from Missouri tax table)	\$1,186

If your tax withheld and estimated tax payment for the first installment period of 2000 were at least \$267 (22.5% of \$1,186) you do not owe an addition to tax for that period.

Exception 4 — Tax on 2000 Income Over Periods of 3, 5 and 8 months — This exception applies if your 2000 tax payments equal or exceed 90 percent of the tax on your taxable income for periods starting from the first of the year to the end of the month preceding that in which an installment is due. This exception does not apply to the fourth quarter. To determine if this exception applies for the first three quarters, figure your taxable income from January 1, 2000 to the end of the month preceding that in which an installment is due. Then compute your tax on that amount as though it represented your taxable income for 2000.

Example II (combined return with one dependent, using standard deduction)				
(1) Computation Period	(2) Income	(3) Tax	(4) 90% of Tax	(5) Tax Withheld
Jan. 1 to Mar. 31	\$ 10,000	0	0	\$ 393
Jan. 1 to May 31	\$ 16,665	\$ 86	\$ 77	\$ 655
Jan. 1 to Aug. 31	\$ 26,665	\$518	\$466	\$1048

Since the amounts in column (5) are greater than those in column (4) for each of the first three computation periods, there is no additions to tax for first three installment periods.

E. Figure the additions to tax — For Line 27a, enter the number of days from the due date of the installment to the date of payment or December 31, 2000, whichever is earlier. If the payment date on Line 26 is December 31, 2000, or later and the due date of the installment is April 15, 2000, then enter 260 days; for June 15, 2000, 199 days; September 15, 2000, 107 days.

For Line 27b, enter the number of days from January 1, 2001, or the 2001 installment due date to date of payment or appropriate due date of return, whichever is earlier. If the payment date is April 15, 2001, enter 105 days for the first, second and third quarters and 90 days for the fourth quarter.

F. Tax Withheld — You may consider an equal part of the income tax withheld during the year as paid on each required installment date, unless you establish the dates on which the withholding occurred and consider it paid on those dates.

G. Overpayment — Apply as credit against the next installment any installment overpayment shown on Line 19 that is greater than all prior underpayments.

H. Installment Payments — If you made more than one payment for any installment, enclose a separate computation for each payment. If you filed your return and paid the balance of tax due by February 1, 2001, consider the balance paid as of January 15, 2001.

I. Exception from the Additions to Tax for service in a Combat Zone — You may be exempt from an additions to tax for underpayment of estimated tax if you served in the U.S. Armed Forces in an area designated by the President as a combat zone under conditions which qualified you for hostile fire pay. If you are exempt for this reason, write on Line 19, for the applicable installment dates, "Exempt, combat zone."

J. Farmers — If (1) your Missouri gross income from farming is at least two-thirds of your total Missouri gross income and (2) you filed a Missouri Individual Income Tax Return and paid tax on or before March 1, 2001, you are exempt from charges for underpayment of estimated tax. If so, write on Line 1, "Exempt, farmer".

If you meet this gross income test but did not file a return or paid the tax when due, complete this form with respect to the last quarter only. Qualified farmers would enter all of Line 14 in the fourth quarter and calculate the appropriate underpayment.
